

AF4740MC™

74 DAYS

- Exciting NuSun® oil hybrid with bird seed market potential
- Outstanding phomopsis, heat and drought tolerance
- Excellent yield potential and staygreen, suited south of zone
- Medium full maturity hybrid with great Downy Mildew resistance

End-Use Markets: BirdSeed, NuSun®, Clearfield®

CHARACTERISTICS

HERBICIDE TOLERANCE	Clearfield®	MATURITY	Medium Full
PLANT HEIGHT	Medium	GRAIN COLOR	Black Gray
TEST WEIGHT	Very Good	OIL CONTENT	Very Good
YIELD	Excellent		

DISEASE RESISTANCE

DOWNY MILDEW	PHOMOPSIS	HEAD SCLEROTINIA	ROOT SCLEROTINIA
Good Resistance	High Resistance	High Resistance	Moderate Resistance

PLANTING

EMERGENCE	Very Good
DROUGHT TOLERANCE	Very Good
DRYDOWN	Good
ROOT LODGING	Very Good
STALK LODGING	Very Good
STALK STRENGTH	Very Good
ROOT STRENGTH	Very Good

Notes:

IMPORTANT: Characteristic scores provide key information useful in selecting and managing products in your area. Information and ratings are based on comparisons with other products sold by AgVenture, Inc.. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision.

AgVenture brand sunflower hybrids with the ExpressSun® herbicide tolerant trait are optimized for Express® herbicide. Express is a trademark of FMC Corporation or an affiliate.

The unique Clearfield symbol and Clearfield are registered trademarks of BASF.

Corteva Agriscience is a member of Excellence Through Stewardship® (ETS). Corteva Agriscience products are commercialized in accordance with ETS Product Launch Stewardship Guidance and in compliance with the Corteva Agriscience policies regarding stewardship of those products. In line with these guidelines, our product launch process for responsible launches of new products includes a longstanding process to evaluate export market information, value chain consultations, and regulatory functionality. Growers and end-users must take all steps within their control to follow appropriate stewardship requirements and confirm their buyer's acceptance of the grain or other material being purchased. For more detailed information on the status of a trait or stack, please visit www.biotradestatus.com.

Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

Components of LumiGEN® seed treatments are applied at a Corteva Agriscience production facility, or by an independent sales representative of Corteva Agriscience or its affiliates. Not all sales representatives offer treatment services, and costs and other charges may vary. See your sales representative for details. Seed applied technologies exclusive to Corteva Agriscience and its affiliates.
